Account registration

Not yet registered for immediate, secure online account access at Vanguard?

Go to www.vanguard.com/retirementplans

In the upper right hand corner click “Register for account access”

Vanguard.com will help you:
   1. Enter personal information and verify identity
   2. Create user name and password
   3. Set up security features

You will need your plan number: 092674

Extra security for mobile phone users

If you have a mobile phone, you can use it to add an additional layer of security to your account with two-step authentication. With this service, we'll text you a unique code when you log on to your account. You'll need to enter the code along with your user name and password.

In other words, if your logon information is compromised, nobody can get into your account unless they also have your phone.
