Project Description
In an effort to supply water to the Lucas Museum in Exposition Park, the Los Angeles Department of Water and Power (LADWP) will be installing critical water system infrastructure necessary for the planned development. As shown in the image, construction will take place along Vermont Avenue, between Exposition Blvd. and Martin Luther King Jr. Blvd.

Construction Schedule
AUGUST 2018
Construction will start on Monday, August 20th, and is scheduled to be completed by Thursday, August 30th. Work hours will be from 9:00 a.m. to 9:00 p.m., Monday through Thursday.

What to Expect
All traffic lanes along Vermont Avenue will be closed, and therefore traffic in the surrounding area will be congested during construction hours. However in an effort to reduce the overall impacts to the community, DWP will be implementing mitigation measures to reduce traffic impacts, control dust, and minimize noise.

Purpose & Objectives
- Upgrade the Water System Infrastructure to Supply Water to the Lucas Museum
- Improve the Fire Protection System near Exposition Park
