A Radically Simpler Way to Get Care for You and Your Family

Lyra makes it easy for you to find and get high-quality, personalized care for your mental and emotional health, so you can be your best self at work and at home.

What’s Included:

Short-Term, Evidence-Based Care
Lyra covers short-term, evidence-based care provided by licensed clinical therapists and mental health coaches who work with Lyra. Lyra providers practice specific methods of therapy that have been proven to be effective at relieving symptoms within a short period of time.

Access to Available Providers and Digital Care Tools
In addition to vetting all of our providers for quality and expertise, we also check their availability. Providers we recommend are available to see you in the next two weeks, so you can get started quickly. For support on-the-go, you can also meet via video or tap into digital care tools for an emotional boost anytime, anywhere.

No Cost to You
No co-pays, no claims to file. USC covers the cost of benefit-eligible care, up to 25 sessions, for PPO or EPO enrolled employees and their dependents. If you have specific questions about eligibility and coverage, contact the Lyra care team.

Get started at usc.lyrahealth.com.
care@lyrahealth.com | (844) 495-7094

Lyra Health, Inc. works in partnership with Lyra Clinical Associates P.C. and other contracted affiliates to be your Lyra care team and deliver clinical services. Your Lyra benefit covers the cost of as many in-person or live video sessions as are clinically indicated by your Lyra provider, up to 25 sessions, as long as you are eligible for benefits from USC. Lyra does not cover psychiatry, inpatient or residential treatment, hospitalization (including partial), intensive outpatient treatment, emergent or urgent care, long term care or counseling, prescription medication, autism spectrum disorder treatment, services for remedial education, and non-evidence-based behavioral health care.

Why Evidence-Based Care?
Of the hundreds of treatments out there, most have little or no research to support their effectiveness. Only a handful of therapies have been rigorously tested in scientific studies and demonstrated to work. That’s why Lyra only works with providers who practice evidence-based techniques, so you can trust you’re getting effective care that will help you get unstuck and back on your feet.

Common evidence-based therapies include: Cognitive Behavioral Therapy (CBT), Acceptance and Commitment Therapy (ACT), Emotionally Focused Therapy, and Mindfulness-Based Cognitive Therapy (MBCT).
