# Investment Options Comparative Chart

Your plan offers a variety of professionally managed investments. One of the benefits of the plan is that you get to decide how your contributions are invested. When making investment decisions, you should keep in mind how long you have until retirement, your tolerance for risk, how this retirement plan fits into your overall financial picture, and the impact of fees. The information on the following pages will help you compare the investment options and make more informed decisions about your retirement plan.

## Part A – Performance and Fee Information

Part A consists of performance and fee information for your plan's investment options. It shows you how well the investments have performed in the past as well as any fees and expenses you will pay if you invest in a particular option.

For more information on the impact of fees and expenses associated with your plan, refer to Section I: Summary of Plan Services and Costs or visit the DOL's website at [www.dol.gov/sites/default/files/ebsa/about-ebsa/our-activities/resource-center/publications/a-look-at-401k-plan-fees.pdf](http://www.dol.gov/sites/default/files/ebsa/about-ebsa/our-activities/resource-center/publications/a-look-at-401k-plan-fees.pdf). Fees are only one of many factors to consider when making an investment decision.

## Part B– Annuity Income Information

Part B contains information about the annuity options available within your employer's retirement plan.

---

## Part A. Performance and Fee Information

---

The following chart(s) list(s) your plan's investment options whose value may change based on market fluctuations. When evaluating performance of your variable investment options, you should consider comparing the returns of each investment to an appropriate benchmark, which is included in the chart. A benchmark is a generally accepted unmanaged group of securities whose performance is used as a standard point of reference to measure and compare investment gains or losses for variable return investments. Keep in mind that you may not invest in the benchmark indexes which are shown for comparative purposes only. For investments that use a blend of stocks and bonds to limit risk, such as Target Date or Multi-Asset funds, a difference from the benchmark may be due to a difference in the proportion of stocks to bonds in the fund when compared to the benchmark. Benchmark information for fixed-return investments is not provided in this chart. Past performance does not indicate how an investment will perform in the future.

Table 1 shows fee and expense information for the investment options listed including the Total Annual Operating Expenses expressed as a percentage and a dollar amount based upon a \$1,000 accumulation both as net and gross of expenses. Total Annual Operating Expenses is a measure of what it costs to operate an investment, expressed as a percentage of its assets, as a dollar amount or in basis points. These are costs the investor pays through a reduction in the investment's rate of return.

The following chart lists the plan's investment options that have a fixed or stated rate of return.

Name/Type/Option	Return	Term	Additional Information*
Guaranteed Annuity			<p>Available in all plans.</p> <p>The current rate shown applies to premiums remitted during the month of November 2019 and will be credited through 2/28/2020. This rate is subject to change in subsequent months. Up-to-date rate of return information is available on your plan-specific website noted above or at 800-842-2733. TIAA Traditional guarantees your principal and a minimum annual interest rate. The guaranteed minimum interest rate is 3.00%, and is effective while the funds remain in the contract. The account also offers the opportunity for additional amounts in excess of the guaranteed minimum interest rate. When declared, additional amounts remain in effect for the twelve-month period that begins each March 1 for accumulating annuities and January 1 for payout annuities. Additional amounts are not guaranteed for the future years. All guarantees are subject to TIAA's claims paying ability. TIAA Traditional is designed primarily to help meet your long-term retirement income needs; it is not a short-term savings vehicle. Therefore, some contracts require that benefits are paid in installments over time and/or may impose surrender charges on certain withdrawals. TIAA has rewarded participants who save in contracts where benefits are paid in installments over time instead of in an immediate lump-sum by crediting higher interest rates, typically 0.50% to 0.75% higher. Higher rates will lead to higher account balances and more retirement income for you. For Group Retirement Annuity (GRA) contracts, and subject to the terms of your employer's plan, lump-sum withdrawals are available from the TIAA Traditional account only within 120 days after termination of employment and are subject to a 2.5% surrender charge. All other withdrawals and transfers from the account must be paid in ten annual installments. After termination of employment additional income options may be available including income for life, income for a fixed period, interest-only payments and IRS required minimum distributions.</p>

## Part B. Annuity Information

The information below focuses on the annuity options under the plan. Annuities are insurance contracts that allow you to receive a guaranteed stream of payments at regular intervals, usually beginning when you retire and lasting for your entire life. Annuities are issued by insurance companies. Guarantees of an insurance company are subject to its long-term financial strength and claims-paying ability.

### TIAA

#### TIAA Traditional Annuity Lifetime Income Option

##### OBJECTIVES / GOALS

To provide a guaranteed stable stream of income for your life and, if you choose, the life of an annuity partner. A TIAA Traditional Annuity provides income stability by providing a minimum guaranteed interest rate as well as the potential for additional interest. TIAA Traditional can be part of a diversified retirement portfolio that may include stocks (equities), bonds (fixed income), real estate, and money market investments. Electing a life annuity is just one of many payout options available under the TIAA Traditional Annuity.

##### PRICING FACTORS

The amount of your lifetime income is dependent upon many factors including:

- The type of annuity selected (single life, joint life, with or without guaranteed minimum periods), and your selection of either the standard or graded benefit method.
- The amount of accumulations converted to a life annuity.
- Your age and, if applicable, the age of your annuity partner.
- The projected returns of the TIAA Traditional Annuity.

Under no circumstances will you receive less than the guaranteed amount of income required under the annuity contracts. To learn more about investments that offer lifetime annuity income, please access the web link provided in the Performance and Fee Information section.

##### RESTRICTIONS / FEES

- You may not begin a one-life annuity after you attain age 90, nor may you begin a two-life annuity after you or your annuity partner attains age 90.
- Subject to contract terms, if your accumulation is less than \$5,000 on your annuity starting date, TIAA may choose instead to pay your accumulations to you in a single sum.
- If your TIAA annuity payment would be less than \$100, TIAA has the right to change the payment frequency which would result in a payment of \$100 or more.

- Once you have elected a lifetime annuity, your election is irrevocable.

#### TIAA Real Estate and CREF Variable Annuity Lifetime Income Options

##### OBJECTIVES / GOALS

To provide a variable stream of income for your life and, if you choose, the life of an annuity partner. This lifetime annuity provides a variable income that you cannot outlive. A variable annuity can be part of a diversified retirement portfolio that may include guaranteed, stocks (equities), bonds (fixed income), real estate, and money market investments. Electing a life annuity is just one of many payout options available.

##### PRICING FACTORS

The amount of your lifetime income is dependent upon many factors including:

- The type of annuity selected (single life, joint life, with or without guaranteed minimum periods).
- The amount of accumulations converted to a life annuity.
- Your age and, if applicable, the age of your annuity partner.
- The investment performance of the variable annuity account your annuity is based upon.

Variable annuity accounts don't guarantee a minimum income. Income fluctuates based on market performance and is directly tied to the accounts' investment returns. A 4% annual investment return is assumed. Generally, if the actual return in a given year is greater than 4% the amount of annuity income will increase; if it is less than 4%, the income will decrease. To learn more about investments that offer lifetime annuity income, please access the web link provided in the Performance and Fee Information section.

##### RESTRICTIONS / FEES

- You may not begin a one-life annuity after you attain age 90, nor may you begin a two-life annuity after you or your annuity partner attains age 90.

- Subject to contract terms, if your accumulation is less than \$5,000 on your annuity starting date, TIAA may choose instead to pay your accumulations to you in a single sum.
- If your annuity payment would be less than \$100, TIAA has the right to change the payment frequency which would result in a payment of \$100 or more.
- Once you have elected a lifetime annuity, your election is irrevocable.
- Upon annuitization of CREF accumulations, the expenses associated with CREF will be the same as the R3 Class regardless of the CREF Class prior to annuitization. The R3 Class has the lowest expense of all the CREF Classes.

## PRUDENTIAL - FROZEN TO NEW CONTRIBUTIONS

### Prudential Group Fixed Annuity Option

#### OBJECTIVES / GOALS

To provide a guaranteed stream of income for your life (or some other period of time that may be allowed by your Plan), based on your account balance allocated to the purchase of an annuity under this option.

#### PRICING FACTORS

The amount of the annuity benefit will be determined by (1) the amount applied to purchase the annuity; (2) the form of annuity selected, (3) the age of the annuitant (for a lifetime annuity), and (4) the annuity purchase rates in effect on the annuity purchase date.

#### RESTRICTIONS / FEES

If you elect to purchase an annuity, the following administrative fees will be deducted from your account balance: 3% on the first \$75,000, 1.5% on the remainder, plus a flat amount of \$850.

Fees and expenses are only one of many factors to consider when you decide to invest in an option. You may also want to think about whether an investment in a particular option, along with your other investments, will help you achieve your financial goals. The cumulative effect of fees and expenses can substantially reduce the growth of your retirement savings. Visit the Department of Labor's website for an example showing the long-term effect of fees and expenses at [www.dol.gov/sites/default/files/ebsa/about-ebsa/our-activities/resource-center/publications/a-look-at-401k-plan-fees.pdf](http://www.dol.gov/sites/default/files/ebsa/about-ebsa/our-activities/resource-center/publications/a-look-at-401k-plan-fees.pdf).

**TIAA important additional information:**

The returns quoted represent past performance, which is no guarantee of future results. Returns and the principal value of your investment will fluctuate. Current performance may be higher or lower than that shown, and you may have a gain or a loss when you redeem your investments. Expense ratios shown are based on the most recent information available, but may not reflect all updates. Please consult the most recent prospectus or offering document for more detailed information.

Variable return investments (mutual funds and/or variable annuities) are offered through your plan sponsor's retirement plan. Funds are offered at that day's net asset value (NAV), and the performance is displayed accordingly. Performance at NAV does not reflect sales charges, which are waived through your retirement plan. If included, the sales charges would have reduced the performance as quoted.

If a variable return investment option includes performance for periods beyond its inception date that performance is based on the performance of an older share class of the investment option. Such performance has not been restated to reflect expense differences between the two classes. If expense differences had been reflected, performance for these periods would be lower or higher than stated.

Expense ratios shown are based on the most recent information available, but may not reflect all updates and may differ slightly from the prospectus due to rounding. Please consult the most recent prospectus or offering document for more detailed information.

## Important Notice about the USC Retirement Savings Program

All faculty and staff employees, except those eligible to participate in the Keck Medicine of USC 401(k) Retirement Plan, are eligible to make pre-tax or Roth 403(b) contributions to the supplemental component of the USC Retirement Savings Program beginning with the first pay period following approval of your Workday online transaction. Supplemental contributions are not matched by the University.

If you are a match-eligible employee hired on or after January 1, 2019, you may participate in the matching and non-elective components of the USC Retirement Savings Program upon completion of a one year eligibility period. If you are a match-eligible employee hired prior to January 1, 2019, you may participate upon completing a six month period in which you work 500 or more hours or after one year employment, whichever occurs first. Your enrollment is effective the first pay period following completion of the eligibility period. Please see the Program's Summary Plan Description for information about who is a match-eligible employee.

The Program is intended to satisfy the rules of Internal Revenue Code section 401(m), and to do so, the Program must satisfy certain nondiscrimination requirements. These requirements are imposed to prevent the Program from discriminating in favor of highly compensated employees. The Internal Revenue Code provides plan sponsors with a "safe harbor" method for satisfying these nondiscrimination requirements, and the Program is intended to satisfy this safe harbor.

### Contributions

One method for satisfying the safe harbor is to make fully vested (non-forfeitable) matching contributions. Currently, the Program satisfies the safe harbor by providing for matching contributions each year that equal 100% of your matched employee contributions, which are your pre-tax and/or Roth 403(b) contributions that do not exceed the lesser of 5% of your eligible earnings or the applicable IRS limit for the year. The university also makes a 5% non-elective contribution whether or not you contribute. This means that the university will make a total 10% contribution if you make a 5% matched employee contribution. You may, however, choose to contribute less than 5% or even nothing at all, and still receive a reduced USC contribution:

<b>YOU</b>	<b>USC Match</b>	<b>USC Non- Elective*</b>	<b>USC Total</b>
5%	5%	5%	10%
4%	4%	5%	9%
3%	3%	5%	8%
2%	2%	5%	7%
1%	1%	5%	6%
0%	0%	5%	5%

\*The non-elective employer contribution is subject to a four year graded vesting schedule (25% per credited year of service) for eligible employees hired on or after January 1, 2012

## **2020 Employee Contributions**

Please note that any contributions you make to any other 401(k) or 403(b) plans in 2020 are also counted toward the annual IRS limit. For calendar year 2020, this limit is \$19,500 (\$26,000 if you are age 50 or older.) If available under the applicable IRS limit for the year, you may also make additional pre-tax or Roth 403(b) contributions which are called supplemental employee contributions. USC does not match supplemental contributions. Please see your Summary Plan Description for more information about the Program, including the definition of eligible earnings and more detailed information about contributions and the underlying plans in the Program.

## **Automatic Enrollment**

If you satisfy an eligibility period but do not complete the enrollment process by submitting an online salary reduction agreement on Workday by your enrollment deadline, you automatically will be enrolled in the Program. If you have already been automatically enrolled in the Program, your contribution rate was set up as 5% of your eligible earnings made on a pre-tax basis, with the university making a 5% match and a 5% non-elective contribution for a total USC contribution of 10% of your eligible earnings.

If you do not want to contribute to the Program, or if you want to contribute less than 5%, or if you want to make Roth 403(b) contributions, you must complete the online salary reduction agreement in a timely manner. In the future, you may change your contribution percentage, stop your contributions altogether, or change between pre-tax and Roth 403(b) contributions at any time by completing a new salary reduction agreement using Workday. Changes will be effective with the pay period following the approval of your online transaction. Changes cannot be made retroactively.

## **Plan Investments—Default Investment Fund Information for the Program**

You have the right to direct your contributions to your choice of the three investment providers offered under the Program: Fidelity Investments, TIAA, and Vanguard. If you do not submit the required online salary reduction agreement by your enrollment deadline, both your contribution and the university contribution will be sent to Fidelity Investments and invested in the Vanguard Institutional Target Retirement Fund most appropriate for your estimated retirement year (assuming a retirement age of 65).

If you met an eligibility period prior to March 2016 and did not complete paperwork by your enrollment deadline, your contributions along with USC's contributions were sent to Vanguard and invested in the Vanguard Target Retirement Fund most appropriate for your estimated retirement year (assuming a retirement age of 65).

You may also have funds automatically invested in the Vanguard Institutional Target Retirement Funds if you selected an investment provider but did not choose investment funds or if your account balances were mapped into the Vanguard Institutional Target Retirement Funds as a result of the April 2016 investment menu changes.

The Target Retirement Funds do not charge any expenses or fees of their own.

Vanguard Target Retirement Funds provide a professionally maintained, diversified mix of investments that shifts its emphasis to more conservative investments as the year of retirement nears. Investments in Target Retirement Funds are subject to the risks of their underlying funds. The year in the fund name refers to the approximate year (the target date) when an investor in the fund would retire and leave the workforce. The fund will gradually shift its emphasis from more aggressive investments to more conservative ones based on its target date. An investment in a Target Retirement Fund is not guaranteed at any time, including on or after the target date. Keep in mind that diversification does not ensure a profit or protect against a loss.

You may change your investment provider at any time by logging on to Workday and completing a new salary reduction agreement. You may change investment elections within a particular provider at any time by contacting that provider. SunAmerica and Prudential are closed to receive payroll contributions and transfers/rollovers but account balances may be transferred to one of the other USC investment providers at any time.

### **Vesting and Withdrawals**

For eligible employees hired before January 1, 2012, all employee contributions and both the USC matching and USC non-elective contributions are fully vested at all times. The USC non-elective 5% contribution is subject to a four year graded schedule (25% per each credited year of service) for eligible employees hired on or after January 1, 2012.

While employed at USC, you may withdraw from the accumulations in the supplemental component of your account upon attaining age 59½. Generally, you may withdraw from your total Program accumulations when your employment with the university ends, if you become entitled to a Social Security disability benefit, or upon attaining age 59½ if you are not tenured. If you are tenured, you will not have access to your basic contributions and the university's contributions until you are age 59 ½ and enter into a phased retirement agreement, or submit a resignation from tenure, or resign from your full-time primary administrative position as an officer of the university or a vice president, vice provost, or the dean of a school.

You may borrow up to 50% of your supplemental employee and vested university accumulations, subject to specific IRS rules and limits. You may withdraw from your matched and supplemental employee contributions in the event of certain financial hardships as defined by the IRS. Please see the Summary Plan Description for information about the restrictions, taxes and, in some cases, penalties that apply to both pre-tax and Roth 403(b) withdrawals.
