Under the Plan, disabled dependents who are age 26 or older may be eligible for coverage if they qualify as your disabled dependent child. A disabled dependent child is someone who is 26 years of age or older who is totally and permanently disabled and incapable of self-support. At time of enrollment, you must submit proof of disabled status from a Physician who will certify the dependent child's total and permanent disability and incapacity for self-support. If the dependent child is currently enrolled in the Plan and then reaches the limiting age of 26, you must submit proof of disabled status 30 days before their 26th birthday in order to continue coverage. Otherwise, the dependent child will be terminated at the end of the month of their 26th birthday. The Plan will require proof of continued disabled status from time to time.

The employee must submit a completed ***Totally and Permanently Disabled Dependent Attending Physician's Statement*** (copy attached), with the above information to establish coverage beyond the plan's limiting age.

Continuation of dependent coverage will cease on the first to occur:

- Cessation of the qualifying disability;
- Failure to give adequate proof that the qualifying disability continues; or
- Termination of your dependent child coverage for reason other than reaching the maximum age.

You will be notified of the denial or approval of this request. HealthComp reserves the right to request future reviews and documentation for disabled dependents.

Please note: Any person who, with intent to defraud or knowing that he/she is facilitating a fraud against an insurer, submits an application or files a claim containing a false or deceptive statement is guilty of insurance fraud.
